Subject: Re: Weekend with Charlie Rose Agenda

Thanks NIli - yes I knew you were both joining us again and I did receive Ehud's email and I responded and passed along to Charlie.

As world events are rapidly changing, so is the agenda, so there is a lot to cover this year and we are adjusting the agenda accordingly. We are also keeping a close eye on who may be coming in for the UNGA and we might want to bring out to Aspen. Let me know if you all have any suggestions.

Please let Ehud know we did add a fascinating discussion on "Defining Modern Education" with Sal Kahn, Arne Duncan, Sir Ken Robinson, and Rafael Reif of MIT. We also have one on artificial intelligence and robotics which will address not only the technology side but also the affect on the workforce. We will touch on drones a bit too. Both were two thoughts he was interested in seeing...

I will follow up with Dassy separately --- and will of course, take care of all the details on our end.

All my best,

Margot

We have an incredible and thought-provoking program in the works an would be honored to have him be a part of it again. Naturally, we will take care of all of your arrangements to Aspen and everything else.
